2. Nous réparons ou remplaçons gratuitement, à notre choix, tout travail défectueux et toute matière ou pièce défectueuse ayant rapport au travail exécuté si les défauts se manifestent avant le terme de la période ci-dessus mais nous ne pouvons accepter aucune responsabilité supplémentaire à l'égard d'autres pertes ou d'avaries, soit directes soit indirectes et nous ne sommes pas limités au prix de réparation ou de remplacement individuel. ## ARIEL SERVICE

(UNITED KINGDOM ONLY, ROYAUME UNI SEULEMENT, NUR VEREINIGTES KÖNIGREICH, REINO UNIDO SOLO)

When you purchase a Ariel machine you become the owner of a product which is backed by the most comprehensive after cycle service in the world. The following notes are intended to give a guide to the facilities to the Ariel owner. Detailed information on any aspect of Ariel service may be obtained by discussion with your Ariel dealer or on application to the factory Service Department.

### REPLACEMENT PARTS

The modern price at which Ariel replacement parts are available, has been maintained by making full use of direct distribution channels, with the consequent advantages of large consignments delivered from the works with lower handling, packing and transport costs. For this reason, we do not normally supply spares direct to individual owners, and all requests for replacement parts should be made to your local dealer or spare parts stockist. All Ariel dealers carry stocks of Ariel replacement parts, but the officially appointed spare parts stockists, whose names and addresses are given in the following pages, maintain an extensive and comprehensive range. Ariel owners are strongly advised to fit genuine Ariel replacement parts only. Risks are incurred in not always insisting on the genuine component, and these risks are eliminated if parts are purchased only from our recognised dealers.

### ARIEL EXCHANGE REPLACEMENT SERVICE

The Ariel Exchange Replacement Service is of great value to all Ariel owners. It is particularly useful to those who rely on their machines for daily transport, and who cannot afford to have them out of use for more than a few hours at a time. Under this scheme the owner can exchange any worn or otherwise unserviceable unit, such as engine, gearbox, forks or wheels, for a fully-guaranteed factory-assembled replacement unit. These units are ready for immediate use, and are supplied at fixed prices on the understanding that the old units which they replace are not damaged to a degree where they are not capable of being reconditioned.

All genuine Ariel Exchange Replacement units carry the full three months warranty. Most Ariel dealers and officially appointed spare parts stockists are able to supply genuine exchange units from stock. If this cannot be done, they can obtain the unit for you quickly from the works, and make arrangements for it to be fitted to your machine, afterwards returning the old unit to us. In this way the machine need only be off the road long enough for the conversion to be made. Full details of this scheme can be obtained from your Ariel dealer, and an explanatory leaflet and price list will be sent upon request to Ariel Service Department.

### CORRESPONDENCE

We maintain a skilled staff to help you with any query, technical or otherwise which you may have concerning your Ariel machine. We are always anxious to help, and all correspondence should be addressed to us at—  
ARIEL MOTORS LIMITED, Service Department, Amroy Road, Birmingham 11.

### REPAIRS

(1) All motor cycles, engines or components for repair should be consigned to the factory Service Department at the following address:  
ARIEL MOTORS LIMITED, Service Department, Amroy Road, Birmingham 11.

Full instructions must accompany all items sent to us for repair. If we are simply asked to overhaul a machine all component parts will be completely dismantled and inspected, all worn parts will be renewed and the machine reassembled and tested to original standards.

(2) When sending complete motor cycles, accessories such as windcreens, panniers, Club badges, tools and jacks, should be marked as they are liable to be damaged or lost in transit.

(3) It frequently happens that parts are forwarded to us which do not bear the sender's name and address. Care in this respect will prevent delay and annoyance.

(4) All goods consigned to us must be sent carriage paid.

(5) Immediately we receive a part for repair, an acknowledgement and confirmation of your instructions is posted to you. If you have occasion to enquire by letter or telephone about the progress of the repairs, please follow the instructions printed on your form of acknowledgement.

### SERVICE LITERATURE

An instruction Book is supplied free of charge with each machine and contains all the information required for routine maintenance, and top overhaul. For the normal owner this book will cover all the work that he is likely to undertake. Further copies of Instruction Books to cover all post-war and most pre-war models are available from the Service Department.

For the guidance of dealers and other skilled mechanics, the Service Department also issues Service Charts to cover each model. These Charts contain detailed instructions for complete dismantling and overhaul, and describe the special tools and jigs which are necessary for this purpose. The Ariel owner who has considerable mechanical experience, and feels that he is competent to carry out this most skilled type of work may obtain copies of the Service Charts from the Service Department.

Additional Instruction Books are priced 3/- plus 6d. postage, and the Service Charts 1/8d. plus 6d. postage. The complete set of four charts covers dismantling and rebuilding the entire machine.

### HOURS OF BUSINESS

Our Service Department is open from 8.30 a.m. to 5.30 p.m., Monday to Friday, excepting holiday periods and we are pleased to use Ariel owners, and if necessary, to inspect and advise on the condition of their machines.

We cannot guarantee, however, to be able to service any machine if a call is made without an appointment, and even when calling by appointment, an owner should be prepared to leave his machine with us, in case the work cannot be completed on the same day.

A consignee is always on duty to receive machines brought to the Service Department by appointment, at any time of the day or night, for any day of the week, and similar arrangements are made for collection. Any machine delivered to us after hours should, however, be accompanied by full instructions in writing, together with the owner's name and address.
