SERVICE SHEET No. 8C.

"SERVICE."

September, 1930.

New Type Rear Number Plate and Tail Lamp for Machines fitted with Lucas Magdyno Lighting Set.

In order to comply with the amended regulations respecting identification marks, it will be necessary to fit a larger pattern rear number plate and modified type of tail lamp to machines having Lucas Mag-Generator Lighting Sets.

The new pattern number plate and tail lamp complete with all fittings can be obtained from "Spares."

With each number plate, Component No. 27-7364, one Bracket 15-7371, two bolts K132 (Plated) or 15-232 (Black), with suitable nuts, EB113 (Plated) or 15-234 (Black) and Spring Washers, K197, will be necessary.

The retail price of the number plate, complete with bracket, bolts, nuts, and washers, is 2s. 10d., postage extra.

The new type tail lamp is of Lucas manufacture, type T31, listed at a retail price of 3s., postage extra.

Three screws, Component No. C2-153, and three nuts, C2-158, at 3d. per set, will be necessary to fix the tail lamp in position on the number plate.
