SPECIAL "TUCK IN" EXHAUST PIPES  
FOR A50 - A65 COMPETITION MACHINES

We have in stock a small supply of special "Tuck In" exhaust pipes that were "bent" and shaped for A50 Road Racers and Scramblers and A65 Scramblers.

These exhaust pipes are not chrome plated nor do they have brackets welded on them so it will be necessary to fit them to the A50 or A65 Competition Model you are preparing and weld on brackets.

We are not in a position now to finish these special "tuck in" exhaust pipes so we are offering them at a low price as shown below:

<u>QUANTITY</u>	<u>PART NO.</u>	<u>DESCRIPTION</u>	<u>NET PRICE</u>
1	B652	Special "Tuck In" Exhaust Pipe - Left	\$10.00
1	B653	Special "Tuck In" Exhaust Pipe - Right	\$10.00

Send your order to the Parts Department in the usual manner.

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE
