

SERVICE SHEET No. 146.

"B" & "M" GROUP MODELS.

GEAR SELECTION.

To improve gear selection and prevent the dogs binding on the selector forks, these components have been modified.

The new selector forks, Part No. 66-3290, are interchangeable with the old forks, but they must be used with operating pegs, Part No. 66-3291. The part number of the new dogs is unchanged.

Selector forks Part No. 66-3290 and operating pegs Part No. 66-3291, will be supplied against all orders placed for the old part, Part No. 66-3248.
