DIRECT LIGHTING SET FOR A50-2CC CYCLONE COMP.  
AND A65-2SPH SPITFIRE HORNET

When a simple head and taillight are desired, the following set of parts are available. However, no responsibility is assumed in supplying these instructions. They may not comply to the Motor Vehicle laws in some states.

PARTS REQUIRED:

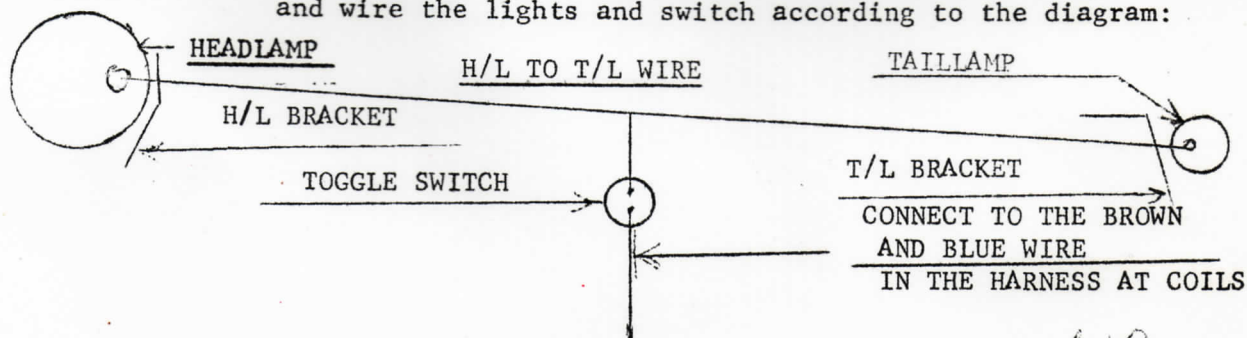

<u>QUANTITY</u>	<u>PART NO.</u>	<u>DESCRIPTION</u>	<u>LIST PRICE</u>
1	BA-502	HEAD LAMP (chrome)	\$ 11.10 B
1	BA-503	HEAD LAMP BRACKET	2.40 B
1	53394	TAIL LAMP	6.25 A
1	B189	TAIL LAMP BRACKET	3.50 B
1	B507	TOGGLE SWITCH	.60 C

INSTRUCTIONS:

1. Assemble the headlamp and bracket to the front fork leg pinch bolts.
2. Locate the taillamp bracket on the rear mudguard scribe and drill holes for mounting screws.
3. Assemble taillamp and bracket on the rear mudguard.
4. Enlarge the hole in the left side panel rear bracket on the frame to one-half inch.
5. Assemble the toggle switch on this frame bracket.

WIRING:

Purchase automotive type light wire from electric supply store and wire the lights and switch according to the diagram:
