SERVICE SHEET

A50/65 MODELS
FRONT WHEEL & FORKS.

From engine numbers: A65LC 11101
 A65FC 11101
 A65TC 11101
 A65RC 11101

Whilst the component parts of the front wheel are identical on both twin and three cylinder models, the complete assemblies differ due to the "dishing" of the hub in relation to the wheel rim. Because of this characteristic the wheels are not interchangeable.

A50/65	Front wheel with spindle and bearings.	Part No. 37-3405
A75	Front wheel with spindle and bearings.	Part No. 37-3622 3312

The front forks fitted to 'A' Group twins also differ from those employed on other models. Front forks on all twins have an identifying mark in the form of a shallow counter bore on each lower member, just below and to the rear of the oil drain plug. The fork end caps also carry this identifying mark and the caps must be fitted with the mark towards the rear.

A50/65	Front fork complete	Part No. 97-3624
A50/65	Fork outer member L. Hand	Part No. 97-3645
A50/65	Fork outer member R. Hand.	Part No. 97-3641
