

# HINTS AND TIPS ON — SERVICE —

For **BSA** and **ARIEL** Dealers

Service Bulletin #98

February 23, 1961

## "A" MODEL HEAVY DUTY CLUTCH SPRINGS

The new clutch, as introduced recently on A10 Super Rocket machines, is fitted to all A group models after the following numbers.

A7	Engine	#CA7-8623	Frame	#GA7-1203
A7 SS	Engine	#CA7SS-8112	Frame	#GA7-12280
A10	Engine	#DA10-13298	Frame	#GA7-11934

Details of this clutch and its comprising parts are quoted in Parts Bulletin #33 dated January 27, 1961.

When it is found that the original clutch springs cannot be adjusted to hold the engine, it will be necessary to assemble stiffer clutch springs, part #42-3273 to overcome slippage.

These stiffer clutch springs may be ordered from our parts department in the usual manner.

Yours very truly,  
BSA Incorporated
