GOLD STAR ENDURO
UPSWEEP EXHAUST PIPE

<u>PART NO.</u>	<u>DESCRIPTION</u>	<u>DEALER NET PRICE</u>
B-642	ENDURO EXHAUST PIPE FOR ALL GOLD STAR MODELS	\$8.00

A high upsweep, cross-over exhaust pipe has been made available for Gold Star Models ridden in Enduro Runs, Scrambles and T.T. races.

This exhaust pipe crosses in front of the steering head tube and turns back on the left side of the engine over the primary drive case. A straight extension pipe or megaphone may be assembled to complete the exhaust system.

It is an ideal exhaust pipe for competition machines as it is high up and will not get flattened on rough terrain or drag when laying the machine over on sharp turns.

We have these special sports exhaust pipes in stock now and they can be ordered from our Parts Department under the part number shown above.
