A7SS MODEL CYLINDER BARREL -- Part No. 67-1310

This cylinder barrel originally made available for 500cc Twin Competition machine engines has a heavy base section and is bored out .040" or 1 MM oversize.

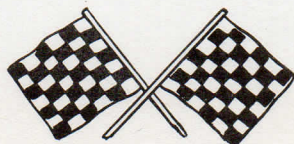

It can be used on a 500cc as it is, and can be bored out to 70 MM and used when building a "Short Rod" 650cc engine.

Parts required to convert a standard A10SR Super Rocket engine to a 650cc Short Rod engine:

<u>QUANTITY</u>	<u>PART NO.</u>	<u>DESCRIPTION</u>	<u>LIST PRICE</u>
1	67-1310	Cylinder Barrel - must be bored to 70 MM	72.00 A
2	68-0053	Conn. rod w/std. size inserts 31.50 ea. (Drill oil hole in left conn. rod)	63.00 A
2	67-396	Inlet Push Rod (A7 Model) 2.88 ea.	5.76 A
2	67-398	Exhaust Push Rod (A7 Model) 2.88 ea.	5.76 A

The above parts can be ordered from our Parts Department in the usual manner.
