PARTS FOR THE THREE TYPES OF C-15 MODEL GEARBOXES

There are three distinct ranges of internal gear ratios for the C-15 Standard - C-15 Scrambler and C-15 Trials Models and are available for three specific types of riding.

Standard Ratio for Road Racing - Scrambles Ratio for Scrambles Riding - Trials Ratio for Trials and Enduro Riding.

This first Chart shows the part numbers for the gears in each type of gearbox, the number of teeth on each gear, and the location of each gear in the gearbox according to the "letters" shown on the "Gear Location Chart."
