SERVICE SHEET

No. 90.

B40 SS90, B40 U.S.A. CYLINDER HEAD.

The angle of the carburetter flange has been modified on the cylinder heads fitted to machines from engine numbers:

Model B40 SS90 - BSS-101

Model B40 (U.S.A.) - B40B-394

These machines use a parallel flange washer number 12641-214 between the head and the carburetter.

Models prior to the above engine numbers use a taper flange washer number 12641-216 between the head and the carburetter.
