- LUCAS RACING MAGNETOS -

Service on Lucas Racing Magnetos is rendered only through Lucas Electrical Services. The intricate nature and high degree of precision on this magneto precludes repairs other than ordinary field service, except on a factory basis. The parts available from our stocks consist of points, magneto caps, pick-ups and the sundry kit. There is no parts availability beyond those items. For repairs requiring other items the complete magneto must be returned. Send direct to:

LUCAS ELECTRICAL SERVICES  
5025 WEST JEFFERSON BLVD.  
LOS ANGELES 16, CALIFORNIA

They have available a special factory exchange service at \$ 28.50 dealer net cost FOB Los Angeles which supplies a new or factory reconditioned unit at that price. It is essential, of course, that they receive from the dealer the entire magneto unit to permit of exchange. Send direct to Lucas Electrical - not to this office.
