GEAR SELECTION - B25 -250 c.c. and B44 - 441 MODELS

To provide more positive gear engagement of second and third gears, the camplate and mainshaft selector fork have been modified.

The new camplate (marked '69' in place of the 'T') is interchangeable, but must be used with the new selector fork, which has a 7/16" turned witness on its spigot for identification.

<u>OLD NO.</u>	<u>NEW NO.</u>	<u>DESCRIPTION</u>
40-3294	57-3850	Camplate
40-3033	57-3854	Mainshaft selector fork

Selector fork No. 40-3033 is still used on the layshaft.
