ENGINE NOS:

Our records indicate that you have on your floor the above noted A50 and/or A65 models.

The pistons in this machine have been superseded by a later design to insure quieter and seizure-free operation, and our mutual interests would be best served by changing these pistons to the latest pattern.

Accordingly we are despatching a pair of pistons for each machine on your floor together with the appropriate gasket set and with the request that you make the changeover.

FOR THE SAKE OF UNIFORMITY IN PROCEDURES
THESE PISTONS HAVE BEEN BILLED YOUR ACCOUNT.

AS SOON AS THE CHANGE HAS BEEN COMPLETED,
IT IS REQUESTED THAT THE OLD PISTONS BE
MAILED TO THIS OFFICE.

IMMEDIATELY UPON RECEIPT OF THE PISTONS
REMOVED, AN OFFSETTING CREDIT WILL BE
ISSUED YOUR ACCOUNT TO BALANCE OUT THE
PISTON CHARGE AND A FURTHER CREDIT OF
\$20.00 WILL BE ISSUED FOR THE CHANGEOVER
LABOR.

We should like to complete these field changeovers at the earliest possible moment and would appreciate your prompt attention.
